Subject: 2009 Federal Tax Credits - Gas Furnaces

On October 3, 2008, President Bush signed into law the "Emergency Economic Stabilization Act of 2008." Part of this law extends tax credits for energy efficient residential gas furnaces. Tax credits for these residential products, which had expired at the end of 2007, will now be available again for improvements "placed into service" during 2009. Qualifying Goodman brand products and amounts are listed in the table below:

In order to qualify homeowners will need to complete IRS Form 5695 (2009 version) and keep a copy Goodman's *Manufacturer's Certification Statement*, both available at www.goodmanmfg.com. Homeowners should submit IRS Form 5695 (2009 version) with their 2009 income tax returns and keep copies of their purchase receipt(s) and *Manufacturer's Certification Statement(s)* for their records.

The maximum amount that a taxpayer may claim from all combined tax credits is \$500 over the lifetime of the tax credit (2006, 2007, & 2009). New home construction does not qualify for HVAC tax credits. Also, please note that improvements made during 2008 are not eligible for a tax credit.
